IABSE Venice 2010 Symposium Report - Vol. 97

‘Large Structures and Infrastructures for Environmentally Constrained and Urbanised Areas’

The IABSE Symposium ‘Large Structures and Infrastructures for Environmentally Constrained and Urbanised Areas’ found wide interest with structural engineers and architects from around the world and was supported by the Universities of Venice and Milan, in conjunction with the Universities from Naples, Rome, Trento and Turin. The latest achievements and developments in the design, construction, monitoring, maintenance of infrastructure works were discussed.

The Report with CD are available, including 3 Keynote Lectures, 375 Presentations and Posters addressing following topics: Basis of Design; Infrastructure and Design as Meeting Point for Architecture and Engineering; Infrastructure Hazard and Safety Concepts; Management and Planning of Operation and Maintenance; Ethics and Social Responsibility.

Keynote Lectures:

- The Messina Straits Bridge: Major Problems Affecting the Design,
Giorgio Diana, Italy
- The Practice of Design of Large-span Building Structures in Recent Years
Jiemin Ding, China
- An Integrated Multidisciplinary Approach to Design of Major Fixed Links
Klaus Ostenfeld, Denmark

All contributions have been collected in a book (899 pages) and on a CD and can be ordered at: www.iabse.org/publications/onlineshop/index.php

Large Structures and Infrastructures for Environmentally Constrained and Urbanised Areas’

Venice Symposium Report - Vol. 97

3 Keynote Lectures and 375 Contributions in English
Book (full length) 899 pages and CD (full length)

Format 170 x 240 mm

ISBN: 978-385748-122-2

Published : September 2010

Price incl. mailing costs: IABSE Member CHF 80.- / Non-Members: CHF 140.-

The International Association for Bridge and Structural Engineering (IABSE) comprises 4'000 members in 100 countries. Founded in 1929, IABSE deals with all aspects of planning, design, construction, maintenance and repair of civil engineering structures. To fulfil its mission, IABSE organises conferences and publishes a quarterly journal, Structural Engineering International, as well as books and reports. The Association has a number of technical groups and presents awards in recognition of outstanding contributions in the domain of structural engineering. ./.
