Ramböhl Sverige, Schimetta Consult

## **IABSE**

*is a technical and scientific association with 4000 members in over 100 countries. It was founded in 1929 and has its seat in Zurich, Switzerland.*

## **IABSE deals with**

**all kinds of structures**  
bridges, high-rise buildings, industrial buildings, sport stadiums, towers, cooling towers, etc.

**all kinds of structural materials**  
structural concrete, structural steel, composites, timber, glass, plastics, etc.

**all phases of the construction process**  
planning, design, construction, operation, monitoring, maintenance and rehabilitation.

**as well as with education and research**

## **YEP**

*is a forum within IABSE with a special focus on bringing together young engineers and to integrate them into the Association.*

## **YEP provides**

**a global network**  
with international contacts

**the opportunity for the professional development**  
of students and young engineers

**travel grants and awards**  
for young engineers

**a lively community**  
of engineers with annual meetings

## **Benefits of IABSE Membership**

personal contact to outstanding engineers and scientists

a subscription of the quarterly journal "*Structural Engineering International*"

Structural Engineering Documents (SED)

reduced rates on IABSE Publications

monthly electronic newsletter

full access to IABSE's internet platform

working in technical and non-technical committees

reduced registration fees for IABSE conferences
